The [AMC Theatres app](#) and Cineplex app (now CosmoGO) primarily focus on ticket purchasing, seat selection, and scheduling rather than featuring in-app sound calibration tests. The apps provide a digital experience for finding showtimes, while audio adjustments for accessibility are handled in-theatre via hardware.  AMC Theatres +4

- **AMC App:** Allows users to book tickets, manage AMC Stubs rewards, and view showtimes. It does not include tools to test or adjust sound system audio.
